VCC Writing Work Breakdown Structure

(Per Fair Information Practice Principles)

Work Group 2: Notice/Awareness (52)

NOTICE AND PURPOSE – Requirements related to communicating applicable policies, and related choices, to customers.

- Identify details related to data collection, use, sharing and retention
- Outline customer rights for accessing this information⁸
- Identify the types of data covered by the VCC⁸
 - o Energy use data
 - o Personally identifiable data
 - o Explicitly state what data is being shared
- Define procedure for complaint resolution ¹
- Specify how consumers will be notified of VCC (organizational participation)

OPENNESS, MONITORING, AND CHALLENGING COMPLIANCE – Requirements related to customer education and complaints.

• Provide customer education and awareness^{1,3}

Work Group 3: Choice/Consent (148)

Lead: Eric Ackerman, EEI

CHOICE AND CONSENT – Requirements related to the customer's granting of authorization for the release/sharing of his or her data.

- Consumers should have the ability to share with third parties²
- Identify what data is being transferred
- Specify at what point consent must be obtained⁷
 - o Time of use/collection or as standard utility privacy policy
 - o For each third party
- Identify methods of consent⁵
 - Management of this process
 - o Electronic, paper form, etc.
- Consider time and effort required for consumer to give consent¹
 - o Process should be clear, concise, understandable, accessible 1,3,6
- Specify time period for consent/expiration⁶
 - © Reauthorization procedures including revisions to policy^{1,3}
- Define disclosure practices
 - o Clearly explain who will have access to the data with the obtained consent⁸
 - Affiliates, agents, subsidiaries
- Outline time parameters for using data once consent is given
- Identify methods of withdrawal
- Consider ease of withdrawal/cancelation of authorization 1,6
- Specify reasons for cancelation and time period to take effect
- Define how the data will be used once collected⁸
- Notify individuals about the use of their data⁵
 - o Includes proposed changes in use of data
- Define access points^{1,7}
 - One way to organize this information is through privacy use cases 1,3
- Define who will have access to the data^{3,5}
- Specify who has the responsibility for validating consent

DISCLOSURE AND LIMITING USE – Requirements related to how customer data is shared with third parties

- Define limits of third party data sharing practices⁷
- Define conditions/parameters for researcher access regarding data subject to consent

Work Group 4: Access/Participation (15 + aggregated data)

Lead: Megan Hertzler, Xcel Energy

COLLECTION AND SCOPE – Requirements related to the scope of customer data that is collected, and potentially shared.

- Outline reasons for collecting data^{2,8}
- Data collection should be limited to only the necessary information to accomplish the purpose/task^{1,3,5}

USE AND RETENTION – Requirements related to how long customer data should be kept, and when it should be destroyed.

- Describe data retention and disposal 1,3,5,6
 - Specify how long data will be retained¹
 - Define process for handling data
 - o Define method for disposal of data³
- Define how retention policy will function in the case of mergers and acquisitions ^{1,8}
- Define who has access without consent
 - o Agents
 - Contractors
 - o Law Enforcement

INDIVIDUAL ACCESS – Requirements related to the customer accessing his or her own data.

- State unequivocal consumer right to access^{2,4,5,6,8}
 - o Consumers should have access to their data^{2,4}
- Describe options for receiving data¹
 - o Customers should have options on how they receive the data

ACCESS TO AGGREGATED DATA – (Requirements to be determined)

- State goals of data minimization^{3,5,6}
- Define the requirements for aggregated and anonymized data⁷
- Require commitment from entities with access to aggregated and anonymized data not to reverse engineer data 1,3,8
- Define conditions/parameters for researcher access regarding aggregated or anonymized data

Work Group 5: Integrity/Security (129 + cyber requirements)

SECURITY AND SAFEGUARDS – Requirements related to how customer data should be protected from un-authorized disclosure.

- Describe data security methods
- Protect data against loss, unauthorized use, modification, etc. 1,3,5
- Define a process for handling breaches^{3,8}
- Define how customers will be notified of breaches²
- Define who is responsible for data breach notification and remedies of breaches

CYBER SECURITY – (Requirements TBD)

ACCURACY AND QUALITY – Requirements related to the maintenance of accurate and complete customer data.

- Endorse data quality^{1,2,3,6}
 - o Consumers should expect quality data^{1,6}
- Identify procedure for correcting inaccuracies
 - o Consumers should be able to obtain corrections to inaccuracies^{2,3,6}

Working Group 6: Management /Redress (58)

MANAGEMENT AND ACCOUNTABILITY – Requirements related to the credibility of the utility and/or third party's privacy function.

- Identify a privacy officer^{1,2,3,4}
- Perform a risk assessment^{1,3}
- Conduct independent audits 1,2,3,5,6
- Perform a Privacy Impact Assessment²
 - o Determine risk^{1,3}
 - o Evaluate protections¹
 - o Verify compliance with legal, regulatory and policy requirements
- Address employee access^{2,4}
 - o Develop policies for employee access
 - o Develop policy for handling terminated employees
- Describe employee training 1,2,3,6
 - o Background checks
 - o Information handling
 - o Collections
- Describe how privacy policies will be communicated to the consumer
 - Short form versus long form

OPENNESS, MONITORING, AND CHALLENGING COMPLIANCE – Requirements related to customer education and complaints.

• Develop a mechanism for handling complaints 1,3,6
